## LABOR DESCRIPTIONS:

### 1. Commercial Job Title: Technician installer, integrator level I (\$121.08/hour per person)

#### Experience

A minimum of two years experience in installation or certificate from relative/authorized trade school, and Experience sufficient to provide the ability to perform all duties listed under Functional Responsibilities, plus:

Familiar with various video components including DVD players, DSS receivers, cable boxes, VCR's, etc.

Proficient with IR based touch screen remotes by Philips or universal.

Full understanding of HDTV and digital surround formats

Familiar with all types of audio video interconnects and their usage. This includes speaker wire, 75ohm Coax, toslink, Cat 5, line level audio, DVI, component video, S-video, etc.

Knowledge of basic electronics (resistors, capacitors, inductors, AC, DC, diodes)

Knowledge of basic acoustics including absorption, reflection, diffusion, transmission, etc.

Proficient with the Windows operating system

Understanding of various transmission protocols (e.g. baseband video, digital, analog) at a signal

Understanding of low voltage wiring types and their use

#### Functional Responsibilities

Understanding and troubleshooting of basic loudspeaker acoustics including enclosure types, Q-factors, impedance curves, etc.

Complete knowledge of current product lines for training

Design high end media rooms and audio/video distribution systems

Proficient with several Engineering programs used in-house for proposals, project management, etc.

Troubleshoot complex systems without documentation

Configure Ethernet based wired and wireless networks

Setup and program Panasonic phone systems

Connect and troubleshoot high end multi-zone audio/video distribution systems

Configure and program touch screen based whole house control systems. Interface to other subsystems including alarm systems, lighting control, HVAC control, entry control, and automation systems

Connect a 7.1 channel home theater which includes speakers, surround receiver, display, and various source equipment

Calibrate the audio levels of a home theater using sound level meters

Calibrate and optimize video on various types of displays

Pre-wire low voltage wiring in residential homes during construction phase to N.E.C standards without supervision

Terminate various low voltage wiring including RG-6, RG-59 to include BNC, Cat 5 (T-568A), and speaker wire

Use wire troubleshooting tools including tracer/toners and continuity testers. Use various hand tools.

Read blueprints for residential homes

#### Education/Training/Certification Requirements

Custom Electronics design industry association (CEDIA) certificate is a plus not necessary, high school diploma or equivalent.

**2. Commercial Job Title: Technician installer, integrator level II  
(\$121.08/hour per person)**

**Experience**

- Experience sufficient to provide the ability to perform all duties listed under Functional Responsibilities, plus:
- Mastery of all Level I technician qualifications with three years experience, plus
- Proficient with the Windows operating system
- Understanding of various transmission protocols (e.g. baseband video, digital, analog) at a signal level
- Understanding of basic loudspeaker acoustics including enclosure types, Q-factors, impedance curves, etc.
- Complete knowledge of current product line
- Proficient with several Engineering programs used in-house for CAD& d- tools, proposals, project management, etc.
- Familiar with audio equipment including speakers, amplifiers, preamps, receivers, CD changers, etc.
- Understanding of speaker impedance and impedance matching
- Understanding of frequency response

**Functional Responsibilities**

- Understanding and troubleshooting of basic loudspeaker acoustics including enclosure types, Q-factors, impedance curves, etc.
- Complete knowledge of current product lines for training
- Design high end media rooms and audio/video distribution systems
- Proficient with several Engineering programs used in-house for proposals, project management, etc.
- Troubleshoot complex systems without documentation
- Advance programming skill
- Troubleshoot complex systems without documentation
- Write complex programs using a combination of Infrared, RS-232, conditional logic, and system feedback
- Connect and troubleshoot high end multi-zone audio/video distribution systems
- Configure and program touch screen based whole house control systems. Interface to other subsystems including alarm systems, lighting control, HVAC control, entry control, and automation systems
- Configure Ethernet based wired and wireless networks
- Setup and program Panasonic phone systems
- Design and build Cable TV distribution systems using splitters, amplifiers, modulators, etc.
- Connect basic 1 or 2 line telephone systems and punch blocks
- Connect Infrared remote control routing systems using IR receivers, IR repeaters, etc.
- Properly mount (secure, level, centered) various installed equipment including plasma TV's, projectors, volume controls, and in- wall speakers
- Connect and troubleshoot single zone speaker distribution systems using switchboxes and volume controls
- Use a Digital Multi-meter

**Education/Training/Certification Requirements**

Custom Electronics design industry association (CEDIA) certificate is a plus not necessary, high school diploma or equivalent, programming training of control systems.

<b>3. Commercial Job Title: Technician installer, integrator level III (\$121.08/hour per person)</b>
<b>Experience</b>
Experience sufficient to provide the ability to perform all duties listed under Functional Responsibilities, plus:
Mastery of all Level 2 Technician qualifications with four years experience, plus.
Familiar with Windows operating system basics
Familiar with various video components including DVD players, DSS receivers, cable boxes, VCR's, etc.
Proficient with IR based touch screen remotes by Philips and Marantz
Full understanding of HDTV and digital surround formats
Familiar with all types of audio video interconnects and their usage. This includes speaker wire, 75ohm Coax, toslink, Cat 5, line level audio, DVI, component video, S-video, etc.
Knowledge of basic electronics (resistors, capacitors, inductors, AC, DC, diodes)
Knowledge of basic acoustics including absorption, reflection, diffusion, transmission, etc.
<b>Functional Responsibilities</b>
Connect a 7.1 channel home theater which includes speakers, surround receiver, display, and various source equipment
Calibrate the audio levels of a home theater using sound level meters
Calibrate and optimize video on various types of displays
<b>Education/Training/Certification Requirements</b>
Factory certified/trained for Crestron, Lite -Touch, CEDIA, Crestron programming certification, conference room set up training and certification.
<b>4. Commercial Job Title: Technician installer, integrator level IV, "Lead" (\$171.53/hour per person)</b>
<b>Experience</b>
Experience sufficient to provide the ability to perform all duties listed under Functional Responsibilities, plus:
Mastery of all Level 3 Technician qualifications with four years experience, plus.
Proficient with the Windows operating system
Understanding of various transmission protocols (e.g. baseband video, digital, analog) at a signal level
Understanding of basic loudspeaker acoustics including enclosure types, Q-factors, impedance curves, etc.
Complete knowledge of current product line
<b>Functional Responsibilities</b>
Connect and troubleshoot high end multi-zone audio/video distribution systems
Configure and program touch screen based whole house control systems. Interface to other subsystems including alarm systems, lighting control, HVAC control, entry control, and automation systems
Configure Ethernet based wired and wireless networks
Setup and program Panasonic phone systems
<b>Education/Training/Certification Requirements</b>
Factory certified/trained for, Lite -Touch, CEDIA, Control system programming, conference room set up training and fire alarm certificate.

**5. Commercial Job Title: Technician installer, integrator level V, "Team Leader"  
(\$171.53/hour per person)**

**Experience**

Experience sufficient to provide the ability to perform all duties listed under Functional responsibilities with four years experience, plus:

Mastery of all Level 4 Technician qualifications plus

Proficient with several Engineering programs used in-house for CAD& d- tools, proposals, project management, etc.

**Functional Responsibilities**

Design high end home theaters and audio/video distribution systems

Troubleshoot complex systems without documentation

Write complex programs using a combination of Infrared, RS-232, conditional logic, and system feedback

**Education/Training/Certification Requirements**

Factory certified/trained for, Lite-Touch, CEDIA, Control system programming, conference room set up training and fire alarm certificate.
